"Wonderful program for our elementary aged students - hands on, educational, and led by a passionate and enthusiastic high school student - the perfect combination!" – Principal of Swan School, Port Townsend

"Lizardopolis provided a wonderful hands-on presentation at our FUNtastics Summer Camp this year at Twisters! The kids LOVED it. Even the children that were a little unsure about some of these reptiles and amphibians got a kick out of their visit. Lauren and Heather were even able to help some of those children feel comfortable enough to overcome those fears and hold a snake or pet the cockroach. Along with the hands-on entertainment and education, they also taught the children a lot of interesting facts about these particular critters. This was all around a wonderful experience for both the adults and children involved with this day. We thank you so much for sharing your time and critters with us!" – Twister's Gymnastics

"Lauren is an exceptionally articulate and passionate student of herpetology. She has a vast knowledge of the snakes she keeps as pets and was able to bring her knowledge to our school and share her interests with the entire 5th grade and 8th grade classes. She recently made three, thirty minute presentations using an extensive PowerPoint slide presentation that was educational, engaging, and stimulating for our students. Not only was I impressed with her visual, well organized and informative presentation, but I was also amazed at her wealth of knowledge when she took questions at the end of the slide show. Afterwards, our class had so many questions that we wrote to her and she researched and responded to our inquiries..."

- 5th Grade Teacher in Port Townsend Schools

"Thank you for teaching me about snakes and letting me hold yours. I think they are really cool and I want one as a pet. Mr. Cuddles is my favorite, but I like Marvin too." - 5th Grade Student in Port Townsend Schools

"The presentation you did with your snakes for our class was great. Thank you very much, it was so much fun!" - 5th Grade Student in Port Townsend Schools

"When my son came home from school he couldn't stop talking about Lauren's snake class. He learned so much from her. He wants to get a pet snake and found her class to be very helpful and informative. He said that it was the best time he had in school all year. Thank you!" - Parent of a 5th Grade Student in Port Townsend Schools

"When Lauren was an 8th grade student in my science class, she brought in her Corn Snake to share with her classmates. She spoke about how to properly care for the snake, how to hold it, and how the snake uses its senses. The 8th grade students in each of my three classes were captivated. The information shared was fascinating. I learned many things from Lauren that I could integrate into my lessons on evolution in the future..." - 8th Grade Teacher in Port Townsend Schools
